ACCOMPLISHMENTS

- ❖ When I was doing my service learning project I had a great time. All the animals were so cute. I accomplished taking care of animal . Taking care of animals is a lot of work, I hate having to pick up the animal poop of the dogs that I walked.
- ❖ The animals that I walked were very playful they had a playpen outside for them and one dog loved the toys that were out there.
- ❖ I'm proud that I picked that service learning project because I love taking care of animals and seeing how people act when they find the one for them.
